

EQUIPMENT

CATALOG

Manufacturing tough, innovative equipment that moves you forward.

QUALITY

When it comes to quality, we never compromise. From production to service, we deliver equipment that's built to last. That's what Ledwell Made means.

GRIT

We work hard. We're problem solvers. We meet customer challenges with innovative solutions. We get it done.

LEGACY

It took sweat, dedication, and a lot of hard work to build this company. This legacy guides us today.

FAMILY

Our people care. We do what's right for our employees, our customers, and our community – because that's what family does.

TUB DUMP

Makes heavy hauling easier.

The Ledwell Tub Dumps, sometimes called demolition dump trucks, have a rounded floor fabricated from AR400 plate that gives them the strength and stability needed to haul heavy loads. Due to the curved body shell, loads can be shed cleanly, reducing waste and speeding up unloading.

TRASH DUMP

Powerful machine to get the job done.

Ledwell's Trash Dump is perfect for hauling construction materials, landscape cuttings, tree branches, storm debris, waste, and more. As an authorized Rotobec dealer with the quickest turnaround times in the industry, we can build a truck to your specs and ship it out when you need it, where you need it.

ROLL OFF HOIST

Designed for long-term service and durability.

The rigid frame design, cable and lock connection provides a dependable truck that will get the job done with minimal maintenance to provide maximum value to our customers.

Ledwell can manufacture and customize a Roll Off Hoist Truck that meets the specific hauling needs of virtually any industry.

PORTABLE RESTROOM SERVICE TRUCK

Overcome service obstacles by improving performance and durability.

The Ledwell Portable Restroom Service Truck helps improve the efficiency of your total operation. Convenient access to controls and hoses. Dual toilet carrier mounted at the rear of the truck. Multiple fresh and waste compartment configurations are available with your choice of 900 or 1500 gallon tanks. Let us manufacture the proper service truck for your needs.

FLATBED

Deliver anything from pallets of material to unique equipment.

Several options are available for our Flatbed Trucks, including a forklift package to maximize loading and unloading efficiency. Count on Ledwell to provide a delivery solution that fits your needs.

Typically, flatbed trucks range in length from 12 to 28 feet, with options for either dumping or remaining stationary.

Stakebed trucks from Ledwell are designed to haul an array of heavy loads. Whether you need building materials, oil field services, or a combination of cargo, we can deliver.

STAKEBED

Adapt to the job on hand to transport a variety of materials.

The stakebed trucks built by Ledwell have removable or foldable sides depending on your hauling needs.

Available in bed lengths ranging from 12 to 22 feet. You can easily load and unload up to 6,000 pounds with one of our rear or side lift gate options. Need something stronger? We can custom-build the stakebed needed to get the job done.

GULL WING

Built for deliveries that require extra protection.

Ledwell designed the patented Gull Wing™ Truck for loads that require extra protection. Its specialty wing design allows the truck to carry multiple pallets of material on each side, making it uniquely equipped to haul loads safely.

The Ledwell Gull Wing™ is 25.5 feet long with a 24 foot cargo area and up to a 14.7 foot clearance.

Our Gull Wing Truck shields and protects pallets and other cargo, rain or shine, so your materials arrive undamaged.

Unload material efficiently with a forklift from either side of the body.

LUBE BUDDY

Perform lube service and maintenance directly in the field.

Two options provide a mobile service center designed for your light-duty pickup truck or medium-duty flatbed. The Lube Buddy, Jr, or Lube Buddy Max are easily transferable from the truck to the job site, making the Lube Buddy work where you need it.

Available with two 20-gallon fresh tanks and one 40-gallon waste tank or 100 and 50 gallon fresh tanks and 150-gallon waste tank, respectively. The Lube Buddy is a must-have for any operation to service equipment when and where you need to.

VACUUM

When the need arises to transport sludge, slurry, or liquid materials, high-quality Vacuum Equipment is an essential part of the transportation process.

Ledwell manufactures a distinct variety of Vacuum Trucks and Trailers in both ASME/DOT and Non-Code configurations, all of which are designed to undergo continuous operation. These trucks are widely used in numerous energy and waste industries, including hazardous material containment, first response cleanup, oil and gas, septic, and hydro-excavation.

No matter what industry you work in, the longevity and rugged design of a Ledwell Vacuum Truck or Trailer will lower your total cost of ownership.

CLASSIC

100 BARREL

GRAPPLES

Looking for a do-everything package?

Pair a Rotobec loader and grapple with a Ledwell Truck Body for a powerful machine that'll get the job done.

As an authorized Rotobec dealer with some of the quickest turnaround times in the industry, we can build a truck to your specs and ship it out where you need it.

This equipment combination is perfect for multiple industries and work sites.
