OUR HISTORY

In 1946, after returning home from World War II, L.W. “Buddy” Ledwell and his father, Lloy Ward Ledwell, started a small operation in Texarkana, Texas. What began as a simple lumber business quickly took a turn when Buddy welded a trailer to haul his own materials. A neighbor saw it and said, “Where’d you get that? I need one.” That moment sparked something bigger.

From that first trailer on, Ledwell’s mission has been the same - solve real problems with practical, hardworking equipment. Buddy and his father built their reputation by listening to customers and doing what it takes to deliver gear that holds up in the field.

Decades later, Ledwell has grown far beyond that first trailer, now serving a wide range of industries with trucks, trailers, and custom builds made to last. We still operate right here in Texarkana, across more than 100 acres, staying true to the same grit, quality, and no-nonsense service that got us started.

80 years in, and we’re just getting started.

WATER TRUCK

Trusted day in and day out.

Ledwell's Water Truck is a go-to solution for crews who need equipment they can count on. Built tough and proven over time, it's designed for dust control, cleanup, and general water hauling on construction sites, race tracks, and any job that demands reliable performance.

Tanks are available in 2000 or 4000 gallon configurations, with protective interior coatings and baffles for added stability and a longer service life. Add-ons like a water cannon, folding sparger bar, and suction hose assembly are available to fit your exact needs.

details

BOX DUMP

Built for your toughest hauls.expand a bit.

Ledwell Box Dump Trucks are engineered to take on demanding jobs and keep moving. Whether you're hauling sand, gravel, or other loose materials, these trucks are built to perform day after day without compromise.

Available in light, medium, or heavy-duty builds, each truck is tailored to fit the weight and volume your operation requires. Our most popular bed sizes carry 5 yards of material, 6 yards with sideboards, and up to 14 yards for larger loads. Whatever the job calls for, there's a Ledwell Box Dump ready to handle it.

Scan for
details

TRASH DUMP

Powerful and built to haul what others can't.

Ledwell's Trash Dump Truck is made for heavy-duty cleanup—construction debris, tree branches, storm waste, landscape cuttings, and more. If it needs clearing, this truck can handle it.

Designed for tough environments and built to your specs, our Trash Dumps can be outfitted with a Rotobec loader and grapple for added muscle. As an authorized Rotobec dealer, we provide a powerful combination of equipment and support, ready to take on your most demanding cleanup jobs.

From construction sites to disaster zones, the Ledwell Trash Dump gets the job done with strength and reliability you can count on.

Scan for
details

TUB DUMP

Designed to move heavy material with less hassle.

Ledwell Tub Dumps, also known as demolition dump trucks, are made for hard-hitting jobs like rock hauling, demolition debris, and other heavy material that demands extra strength. Built with a rounded floor formed from AR400 steel plate, this truck is made to take a beating and keep working.

The curved body design helps shed material cleanly, reduces waste, and speeds up the unloading process, cutting down on time and cleanup so your crew can stay productive.

If you need a rugged, no-nonsense solution for hauling dense or abrasive material, the Ledwell Tub Dump delivers every time.

Scan for
details

FLATBED DUMP

Reliable hauling for hard-to-handle materials.

Ledwell Flatbed Dumps are built to handle what others can't. Whether you are moving heavy equipment, awkward materials, or irregular loads, this truck gives you the flexibility to get it done.

Available in light or heavy-duty configurations, bed lengths range from 12 to 24 feet to fit the job at hand. The flatbed design makes it easier to load, secure, and dump bulky or non-uniform materials without a hassle.

When the work calls for a dependable hauler with the strength to handle tough loads and the flexibility to adapt, the Ledwell Flatbed Dump delivers.

Scan for
details

LOADING RAMP

Built for steady, all-day performance.

Ledwell Loading Ramps are built to handle demanding jobs with ease. Whether you choose the Standard or All-Weather model, each ramp is designed for strength, stability, and easy transport.

Available in 25 or 30 foot lengths with either an expanded metal or wood deck, these ramps make loading and off-loading safer and more efficient across all types of worksites.

Add the optional Solar Lift Kit for smooth height adjustment at the push of a button. Powered by sunlight and built for durability, it brings extra convenience to an already dependable piece of equipment.

Scan for details

ROLLBACK

Built to move equipment with control and confidence.

Ledwell Rollback Trucks are built for everyday performance in demanding conditions. Whether you're moving equipment, vehicles, or heavy materials, this truck is designed to make loading and unloading smooth and straightforward.

The Hybrid Rollback features a double-acting hydraulic cylinder system that gives you better control over the bed, making the whole process faster and easier on the job. Each unit can be customized in length from 21 to 30 feet to fit your specific hauling needs.

When the job calls for strength, control, and versatility, the Ledwell Rollback is ready to deliver.

Scan for
details

MACHINERY MOVING ROLLBACK

Designed for demanding hauls, shift after shift.

Ledwell's Machinery Moving Rollback is built for jobs that demand maximum strength and control. Designed with the same trusted performance as our Medium and Heavy-Duty Rollbacks, it adds the extra capacity and durability needed for hauling heavy equipment day in and day out.

Available in 28 or 30 foot bed lengths, this truck is made to handle tough loads and stand up to repeated use in the harshest conditions.

If your work depends on moving serious weight without compromise, the Machinery Moving Rollback is up to the task.

Scan for
details

HYDRATILT TRUCK

Made to move low-clearance equipment with ease.

Ledwell's patented HydraTilt Truck is a smart solution for hauling containers and non-powered machinery. Available in 28 or 30 foot lengths, it features a tilting main deck that makes loading low-clearance units safer and more efficient.

Its low ride height provides added clearance for taller equipment while giving you easy access to tie-down points for secure transport. The HydraTilt is engineered for jobs that demand precision, control, and dependable performance—every time.

Scan for details 

HYDRATAIL TRUCK

Lower deck height. Higher hauling efficiency.

The Ledwell HydraTail Truck is made for fast, efficient transport of equipment that needs extra height clearance. With its bed mounted directly to the chassis frame—about five inches lower than a Standard Rollback—it gives you more room to work with when hauling taller equipment.

It uses the same trusted tail design as our HydraTail Trailers and requires less ground space for safe, convenient loading. For crews that need dependable performance and smart design in tight spaces, the HydraTail Truck gets it done.

Scan for
details

PERIMETER BEAM HYDRATAIL TRAILER

Built for big equipment and smart hauling.

The Ledwell Perimeter Beam HydraTail Trailer is a work-ready solution for moving heavy machinery with added flexibility and ease. Designed for serious equipment haulers, this trailer offers multiple length options and features that make loading, transport, and clearance easier—no matter the job.

The hydraulically powered full-width mini-deck gives operators simple access to the upper deck, adding more usable cargo space without compromising safety. A built-in deck drop increases load height by up to 10 inches, giving you the clearance needed for taller equipment.

For even more capability, the optional Knuckle Boom Trough is a game-changer. It cradles excavator booms within the trailer frame, lowering the overall height of the load and helping you meet clearance limits without switching equipment. This design cuts hassle, saves time, and keeps your fleet running lean.

When you need a trailer that does more with every load, the Perimeter Beam HydraTail is up to the task.

Scan for
details

MAXTILT TRAILER

Maximum tilt. Minimal hassle.

The Ledwell MaxTilt Trailer is our steepest tilting trailer, designed to simplify the loading and unloading of containers, trucks, and low-clearance equipment. With a main deck that lifts up to a 32-degree angle, it creates a smooth, low breakover point that cuts down on hang-ups and helps get equipment loaded faster.

Available in 48 or 53 foot lengths, the MaxTilt features a patented unified hinge system that adds strength while keeping the operation simple. It's ideal for hauls that require precision loading, added height clearance, and reliable performance every time.

If your job demands a trailer that handles the hard stuff without slowing you down, the MaxTilt is the one to run with.

HYDRATILT TRAILER

Built for smooth, controlled equipment loading.

The Ledwell HydraTilt Trailer is a dependable solution for transporting low-clearance and non-powered equipment. With a hydraulic main deck hinged at the rear, it creates a minimal breakover angle that makes loading and unloading easier and safer.

Available in multiple lengths, this trailer is well-suited for forklifts, lifts, and other machinery that requires a gradual approach. Its simple, durable design gives operators the control and confidence to get the job done right—day after day.

When you need a trailer that handles tough hauls with steady performance, the HydraTilt is ready to roll.

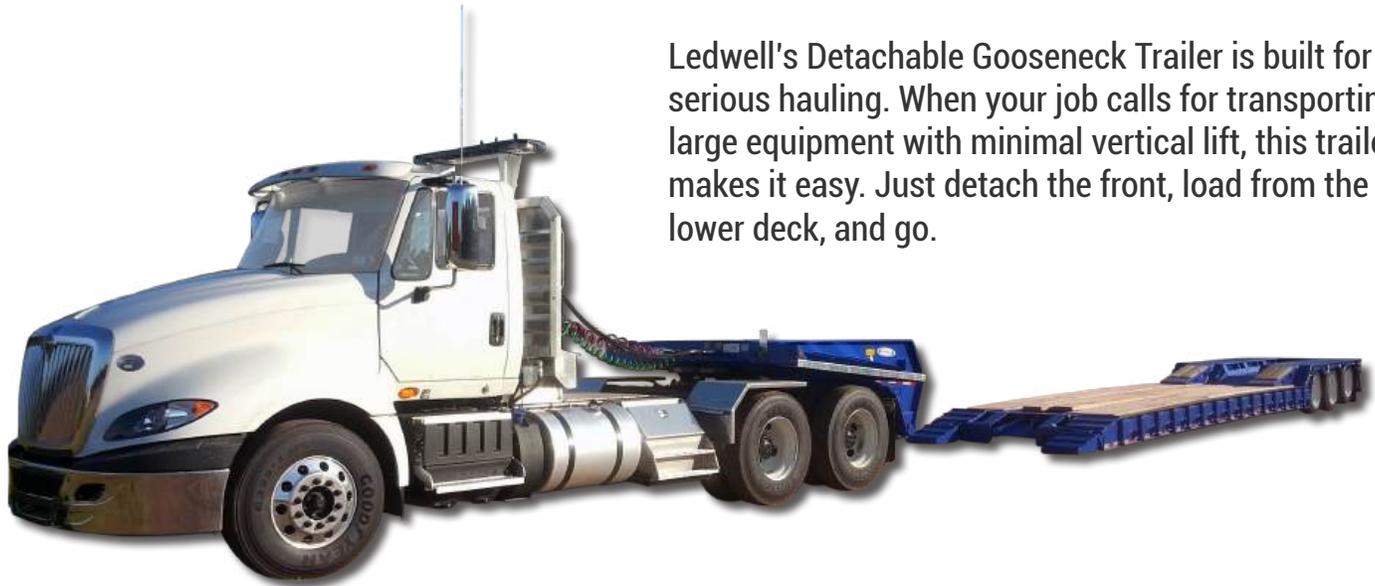

Scan for
details

DETACHABLE GOOSENECK TRAILER

Designed for easy front loading and heavy hauling.

Ledwell's Detachable Gooseneck Trailer is built for serious hauling. When your job calls for transporting large equipment with minimal vertical lift, this trailer makes it easy. Just detach the front, load from the lower deck, and go.

The 53-foot model is our most popular, offering plenty of space and flexibility for a wide range of heavy-duty applications. With a low deck height and a strong frame, this trailer is built to handle big payloads and tough conditions.

For efficient front-loading and confident equipment transport, the Detachable Gooseneck Trailer is ready to work when you are.

ROLL OFF TRUCK

Built to handle the haul and keep working.

Ledwell Roll Off Trucks are made for long-term use with minimal maintenance. The rigid frame and cable-and-lock connection provide a solid foundation that holds up under pressure and performs when it matters most.

Each unit can be customized to fit your operation—no matter the industry. Whether you're hauling containers, debris, or specialty loads, we build every Roll Off to match your specs and deliver lasting value.

When you need dependable equipment that works hard without constant upkeep, a Ledwell Roll Off is the right tool for the job.

Scan for
details

ATTENUATOR TRUCK

Protection that keeps crews safe and traffic moving.

Ledwell's Truck-Mounted Attenuator is designed to reduce the impact of collisions during road work, offering critical protection for both workers and motorists. It's a trusted choice for rental, construction, and municipal fleets that need dependable safety on active roadways.

Available on flatbeds or stakebeds ranging from 16 to 20 feet, each TMA truck can be customized with options like a cone seat or ballast box to meet specific jobsite needs.

When safety is on the line, Ledwell delivers equipment you can count on.

Scan for details 

FLAT BED TRUCK

Ready to carry whatever the workday brings.

Ledwell Flatbed Trucks are a dependable choice for transporting a wide range of materials—from pallets and equipment to jobsite supplies and everything in between. With bed lengths from 12 to 28 feet, each truck can be configured to dump or stay fixed, depending on your needs.

Optional forklift packages make loading and unloading faster and safer, while additional customizations ensure your flatbed is built to match your exact operation.

Whatever the load, Ledwell delivers the solution to move it.

Scan for
details

STAKEBED TRUCK

Versatile hauling that adapts to your workday.

Ledwell Stakebed Trucks are made to haul a wide range of materials with flexibility you can count on. With removable or fold-down sides, these trucks adapt quickly to different load types and work environments.

Bed lengths range from 12 to 20 feet, and you can choose from rear or side lift gates capable of handling up to 6,000 pounds. Need more capacity or a specialized setup? We can custom-build a stakebed to meet your exact specs.

When your workload changes by the day, the Ledwell Stakebed Truck is ready to keep up.

Scan for details

GULL WING

Keeps cargo covered, secure, and ready to unload.

The patented Ledwell Gull Wing™ Truck is designed for deliveries that require added protection. Its unique wing-style doors allow access from both sides and make it easy to load multiple pallets while keeping cargo shielded from the elements.

With a 25.5-foot body and a 24-foot cargo area, the Gull Wing offers up to 14.7 feet of interior clearance—plenty of room for tall or stacked materials. Whether rain or shine, your load stays protected from start to finish.

When your delivery demands care and coverage, the Gull Wing gets the job done right.

Scan for
details

SERVICE TRUCK

Equipped to handle repairs wherever the job takes you.

When equipment breaks down in the field, your crew needs a truck that's ready to respond. Ledwell partners with Stellar Industries to deliver dependable service trucks built for off-site maintenance and repairs.

Available models include the TMAX1-11, TMAX2-11, and TMAX2-14—each outfitted with a heavy-duty crane to lift, move, and support repair operations. Add a Lube Buddy to create a full-service mobile unit that keeps your fleet running strong.

Scan for
details

LUBE BUDDY

Field service that fits your truck and your job.

LUBE BUDDY MAX

LUBE BUDDY JR

The Ledwell Lube Buddy makes it easy to perform lube service and maintenance right where your equipment is working.

Designed for mobility, it transforms your light-duty pickup or medium-duty flatbed into a fully functional service unit.

Choose from two models—the Lube Buddy Jr. and Lube Buddy Max—both easily transferable from vehicle to job site.

Depending on the setup, tank options include dual 20-gallon fresh tanks with a 40-gallon waste tank, or 100 and 50-gallon fresh tanks with a 150-gallon waste tank.

Scan for details

SELF CONTAINED UNIT

Portable power to run your trailer anywhere.

The Ledwell Self-Contained Unit is a compact, engine-driven pump system that lets you operate any Ledwell Hydratail Trailer—no tractor hydraulics required. It's the perfect backup when your tractor doesn't have hydraulic capabilities or when flexibility in the field is a must.

Designed to fit on the top deck of any trailer, this unit is easy to install, easy to use, and built to keep your equipment moving no matter the setup.

Scan for
details

LOADERS & GRAPPLES

One tough combo for heavy lifting and cleanup work.

Pair a Rotobec loader and grapple with a Ledwell Truck Body to create a workhorse that handles debris, bulk material, and heavy-duty cleanup with ease.

Whether you're clearing storm damage, handling scrap, or moving timber, this setup gives you the strength and control to get the job done fast.

As an authorized Rotobec dealer, Ledwell can build and deliver a truck to your specs—ready for action on your timeline. This combination is trusted across multiple industries including forestry, waste management, disaster recovery, and more.

When you need one truck that can handle it all, this is the package to put to work.

TRACTOR RIG-UP

Custom hydraulic setups built to match your haul.

Ledwell offers custom rig ups for new or used tractors, tailored to meet the demands of your operation. Choose from high-performance Wet Kits designed for the Oil and Chemical, Bulk Haul, and Transportation industries.

Each system is built with quality pumps and dependable hydraulics to ensure your tractor delivers steady, efficient power where and when it's needed.

When your haul depends on the right setup, Ledwell gets it done right.

details

CHASSIS & TRACTORS

OIL & CHEMICAL

Engineered for demanding oilfield service.

Ledwell Chemical Trucks are built for the oil and gas industry with safety, durability, and field-proven performance in mind. Each bed is fully customizable to meet specific jobsite needs and built to handle the toughest conditions with long-term reliability.

BULK FEED

Built for high-volume, high-efficiency delivery.

Ledwell designs and manufactures bulk haul trucks and trailers to safely deliver livestock feed, wood pellets, and other loose materials with efficiency and care. Available in lengths up to 45 feet with multiple bin configurations, each unit is built to fit your operation and deliver dependable performance day after day.

VACUUM

Heavy-duty performance for liquid and waste transport

When the need arises to transport sludge, slurry, or liquid materials, high-quality Vacuum Equipment is an essential part of the transportation process.

Ledwell manufactures a distinct variety of Vacuum Trucks and Trailers in both ASME/DOT and Non-Code configurations, all of which are designed to undergo continuous operation. These trucks are widely used in numerous energy and waste industries, including hazardous material containment, first response cleanup, oil and gas, septic, and hydro-excavation.

No matter what industry you work in, the longevity and rugged design of a Ledwell Vacuum Truck or Trailer will lower your total cost of ownership.
