WATER TRUCK

A top-selling product that lives up to its reputation.

Ledwell's legacy of industry-leading craftsmanship is evident in our top-selling Water Truck. This truck is a customer favorite with a well-earned reputation for its performance, durability, and extended life span. Ledwell's Water Truck is the ideal water hauler for construction sites, race tracks, or any job that requires dust control.

Water tanks are available in 2000 gallon and 4000 gallon configurations.

BOX DUMP

Handles your most demanding projects.

Available in various sizes. Our most popular dump beds can carry 5 yards of material, 6 yards with sideboards, and 12 yards, 14 yards with sideboards.

Ledwell Box Dumps are widely chosen for the transportation of loose materials such as sand or gravel. They are available for light, medium, or heavy-duty applications, making this truck highly adaptable to meet unique material transportation needs.

TRASH DUMP

Powerful machine to get the job done.

Ledwell's Trash Dump is perfect for hauling construction materials, landscape cuttings, tree branches, storm debris, and waste. As an authorized Rotobec dealer with the quickest turnaround times in the industry, we can build a truck to your specs and ship it out when and where you need it.

TUB DUMP

Makes heavy hauling easier.

The Ledwell Tub Dumps, sometimes called demolition dump trucks, have a rounded floor fabricated from AR400 plate, which provides the necessary strength and stability for transporting heavy loads. The curved body shell allows clean material to be shed, reduces waste, and speeds up unloading.

FLATBED DUMP

A secure, flexible way to move heavy loads.

Ledwell Flatbed Dumps are suitable for both light-duty and heavy-duty applications. Depending on the application, lengths can range from 12 to 24 feet.

Ledwell simplifies transporting materials that are typically difficult to move. Flatbed Dump Trucks are perfect for transporting heavy or odd-shaped loads.

LOADING RAMP

Perfect addition to any yard.

Functional, versatile, and portable, Ledwell's Standard or All-Weather Loading Ramps are assets in any yard. These heavy-duty ramps are perfect for loading and off-loading and are sturdy enough for demanding loads. Choose from 25 or 30 foot lengths with an expanded metal or wood deck.

The Solar Lift Kit can be added to any ramp to easily adjust its height with the simple push of a button. This innovative system harnesses the power of the sun to effortlessly lift the ramp to the desired height.

ROLLBACK

Heavy-Duty trucks built for tough hauling.

Our Rollback Trucks offer unmatched ruggedness and reliability, ensuring you can rely on them every day. The Hybrid Rollback, equipped with a double-acting pair of hydraulic cylinders, provides smooth bed control for easier loading and unloading.

Plus, each Rollback can be customized in length, from 21 to 30 feet, to perfectly suit your hauling requirements.

MACHINERY MOVING ROLLBACK

Unmatched durability and function for any hauling challenge.

Ledwell's Machinery Moving Rollback is the ultimate solution when you need maximum strength from your equipment. Designed with ease of use in mind, it delivers the same reliable performance as our Medium and Heavy-Duty Rollbacks. Available in 28- or 30-foot bed lengths, it's built to handle your toughest jobs.

Unmatched in durability and functionality, the Machinery Mover is engineered to carry heavy loads and endure rigorous, long-term use.

13

HYDRATILT TRUCK

Leading the way in hauling equipment.

Ledwell's patented HydraTilt Truck, available in 28- or 30-foot lengths, is unparalleled in its ability to haul containers and non-powered equipment. While it operates similarly to our HydraTail Truck, the HydraTilt offers the added benefit of a tilting main deck, making it ideal for low ground clearance equipment.

With its low ride height, it's perfect for hauling larger equipment and ensures easy access to tie-downs for secure transportation.

HYDRATAIL TRUCK

Built for more payload.

The Ledwell HydraTail Truck is an excellent vehicle for quickly and efficiently hauling your equipment. Its bed sits directly on the chassis frame, about five inches lower than the Standard Rollback, providing additional height clearance for larger loads. Designed with the same high-quality tail as our HydraTail Trailers, it requires less ground space for convenient and efficient loading.

15

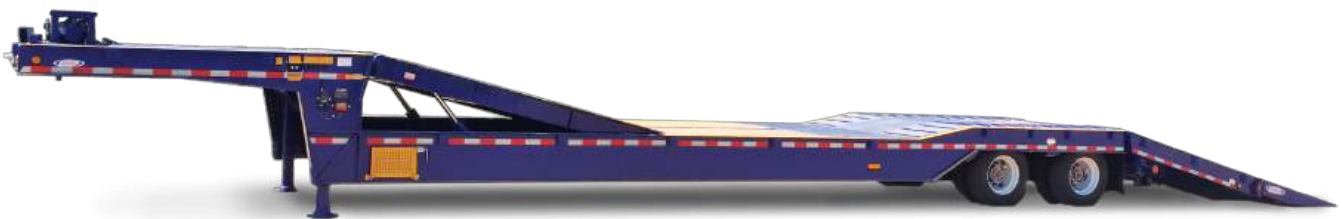

PERIMETER BEAM HYDRATAIL TRAILER

Designed to haul any heavy load.

The Ledwell Perimeter Beam HydraTail Trailer is the top choice for equipment haulers. This versatile trailer comes in multiple lengths and offers multiple options for transporting equipment. Its hydraulically powered full-width mini-deck allows for easy access to the upper deck, providing additional cargo space.

A drop in the deck increases the load height by up to 10 inches. The optional knuckle boom trough fits excavator booms perfectly, reducing the overall height of the load.

MAXTILT TRAILER

Meet our highest-tilting trailer ever.

The MaxTilt Trailer is designed with a main deck that can be raised up to a 32-degree angle, creating minimal breakover and making it an ideal solution for transporting containers, trucks, and other large items.

The MaxiTilt is available in lengths of 48 or 53 feet. Thanks to its integrated hinge, this trailer can easily load and unload low-clearance equipment.

17

HYDRATILT TRAILER

Engineered for hauling low clearance and non-powered equipment.

HydraTilt Trailers are versatile pieces of equipment capable of hauling just about anything. Available in multiple lengths, this trailer is the perfect solution when you need to get low. It's the ideal trailer for easily loading and unloading non-powered equipment.

By using a hydraulic main deck hinged at the rear, the HydraTilt Trailer allows you to achieve a minimal breakover angle between the tail and the main deck.

DETACH GOOSENECK TRAILER

Built for oversized heavy payloads.

Ledwell's Detachable Gooseneck Trailer offers the best of both worlds for heavy haul and equipment transportation. When you have a job that requires transporting a heavy load with minimal vertical climb, you can detach the nose and load on the lower deck from the front.

The 53-foot length is our most popular choice for this trailer.

19

TRACTOR RIG UP

Tailored hydraulic systems for reliable performance.

Ledwell provides custom tractor upfits for new or used tractors. Select from Tractor Wet Kits designed for superior performance in the Oil and Chemical, Bulk Haul, and Transportation industries. Ledwell's high-quality pumps and hydraulic systems ensure reliable performance.

ROLL OFF HOIST

Designed for long-term service and durability.

The rigid frame design, cable and lock connection provides a dependable truck that will get the job done with minimal maintenance to provide maximum value to our customers.

Ledwell can manufacture and customize a Roll Off Hoist Truck that meets the specific hauling needs of virtually any industry.

ATTENUATOR TRUCK

Reliable equipment for hazardous road work.

The Truck-Mounted Attenuator is designed with the safety of employees and motorists in mind. It reduces the impact of on-road or on-site collisions, decreasing property damage and bodily trauma. In the rental, construction, and municipal industries, Ledwell's TMA package is extremely beneficial.

You can choose from flatbeds or stakebeds in lengths of 16 to 22 feet. Additional accessories, such as a cone seat or ballast box, are available to customize your truck.

FLATBED

Deliver anything from pallets of material to unique equipment.

Various options for flatbed trucks are available, including a forklift package to enhance loading and unloading efficiency. Ledwell can tailor a delivery solution to your requirements.

Flatbed trucks typically range from 12 to 28 feet and can dump or remain stationary.

23

STAKEBED

Adapt to the job on hand to transport a variety of materials.

The stakebed trucks built by Ledwell have removable or foldable sides depending on your hauling needs.

Available in bed lengths ranging from 12 to 22 feet. You can easily load and unload up to 6,000 pounds with one of our rear or side lift gate options. Need something stronger? We can custom-build the stakebed needed to get the job done.

Ledwell stakebed trucks are designed to haul a variety of heavy loads. We can deliver whether you need building materials, oil field services, or a combination of cargo.

GULL WING

Built for deliveries that require extra protection.

Ledwell designed the patented Gull Wing™ Truck for loads that require extra protection. Its specialty wing design allows the truck to carry multiple pallets of material on each side, making it uniquely equipped to haul loads safely.

The Ledwell Gull Wing™ is 25.5 feet long, with a 24-foot cargo area and a clearance of up to 14.7 feet.

Our Gull Wing Truck shields and protects pallets and other cargo, rain or shine, so your materials arrive undamaged.

Unload material efficiently with a forklift from either side of the body.

SERVICE TRUCK

Work-ready solution for mobile maintenance.

When equipment goes down in the field, you need a service truck with everything required to perform off-site repairs. We've partnered with Stellar Industries to deliver the best service trucks.

Options include the TMAX1-11, TMAX2-11, and TMAX2-14. Each model comes prepped with a heavy-duty crane. Add a Lube Buddy for the complete mobile service truck for your fleet.

LUBE BUDDY

Perform lube service and maintenance directly in the field.

LUBE BUDDY MAX

LUBE BUDDY JR

Two options provide a mobile service center for your light-duty pickup truck or medium-duty flatbed. The Lube Buddy, Jr. or Lube Buddy Max is easily transferable from the truck to the job site, making the Lube Buddy work where you need it.

The Lube Buddy is available with two 20-gallon fresh tanks and one 40-gallon waste tank or 100 and 50-gallon fresh tanks and a 150-gallon waste tank, respectively. It is a must-have for any operation that needs to service equipment when and where it is needed.

POWER WHEREVER YOU GO

This engine-driven pump offers enough power to fully operate any Hydratail Trailer and keep business moving, even if your tractor isn't. Portable and compact, it fits on the top deck of any trailer.

SELF-CONTAINED UNIT

Operate any Ledwell Trailer with any tractor.

This engine-driven pump offers enough power to fully operate any Hydratail Trailer and keep business moving, even if your tractor isn't. Portable and compact, it fits on the top deck of any trailer.

PORTABLE RESTROOM SERVICE TRUCK

Overcome service obstacles by improving performance and durability.

The Ledwell Portable Restroom Service Truck helps improve the efficiency of your total operation. It has convenient access to controls and hoses, and a dual toilet carrier is mounted at the rear of the truck. Multiple fresh and waste compartment configurations are available with your choice of 900 or 1500 gallon tanks. Let us manufacture the proper service truck for your needs.

VACUUM

When the need arises to transport sludge, slurry, or liquid materials, high-quality Vacuum Equipment is an essential part of the transportation process.

Ledwell manufactures a distinct variety of Vacuum Trucks and Trailers in both ASME/DOT and Non-Code configurations, all of which are designed to undergo continuous operation. These trucks are widely used in numerous energy and waste industries, including hazardous material containment, first response cleanup, oil and gas, septic, and hydro-excavation.

No matter what industry you work in, the longevity and rugged design of a Ledwell Vacuum Truck or Trailer will lower your total cost of ownership.
