## CHEMICAL TOTE BED

When it comes to working with chemicals, Ledwell understands your need for safety and durability. This Chemical Tote Bed featured includes four waterproof color monitors located around the bed to ensure that you have a trusted line of vision at all necessary locations. Additionally, this truck is fitted with heavy duty pumps, digital flow meters, and a substantial crane for sturdy material handling and proper material flow. All of these components work hand in hand to ensure the safe progression of your work day.

We understand that your needs might not be the same as the next persons. For that reason, we offer a variety of options for your specific projects, including many tote configurations and materials for constructing the body, pumps and hoses, plumbing, and crane mechanisms. No matter the operation, Ledwell will find a way to meet your needs.

Alzheimer's Alliance Tri-State is an organization that assists Alzheimer's patients, and oversees Our Place Day Respite Center to provide help for those living with Alzheimer's and their families. After thirty-five years of experience, this group now serves over 17,000 people in more than twenty counties across Arkansas, Texas, and Oklahoma. To ensure the mindfulness of all parties involved, they host a center, known as Our Place, that provides care and service to people in the community and allows caregivers a reliable place for day time aid.

As a non-profit organization, Alzheimer's Alliance often holds fundraisers and events to raise finances for their cause. Just recently, they organized a function in Texarkana, Texas, Over the Edge, that raised more than sixty-five thousand dollars. This event took place on September 15th, 2018, when our community came together to scale down the walls of a six story building on the campus of a local university, Texas A&M - Texarkana.

Members of our Ledwell team showed their support by participating in the downward climb, raising over four thousand dollars combined. These employees included Christina Guzman from our marketing department, Lisa Farris from Human Resources, Jeff Harlow in sales, and Gary Gathright, a Ledwell engineer. Each Ledwell team member is proud to say that they could be a part of something so impactful for their community and those communities around them.

 introduces

## **ROTOBEC EQUIPMENT**

In an effort to provide continued product solutions that meet your needs and expectations, Ledwell is pleased to offer Rotobec Mobile Grapple Loaders in conjunction with our various body choices. Ledwell's long standing run in the business of truck body and trailer manufacturing means that we've handled enough products to know what works and what will get your job done efficiently. Pairing our custom built products with Rotobec attachments is a smart way to reach your companies best potential.

The ELITE is without question the toughest, most versatile, longest lasting knuckle boom loader of its size. The Elite is used in every industry in a variety of applications. Its precision and agility make it the ideal machine for everything from log loading to railway maintenance and construction. No matter what the application, the ELITE loader is fit for the job.

With the industry's lowest total cost of ownership, the ELITE is quickly becoming the favorite of owners and operators around the globe. Available in a variety of configurations, Ledwell and Rotobec provide solutions for every application. If you are looking to lift and transport more in less time than ever before, look no further, Ledwell and the ELITE is your only option.

# BIO SECURITY KIT

SANITIZE ALL TIRES & WHEELS

## PERFECT FOR:

FEED TRUCK  
FEED TRAILER  
SERVICE VEHICLES

AVAILABLE ON NEW EQUIPMENT OR AS RETROFIT KIT

# INNOVATION

Efficiency and durability are just two of the many things to consider when loading heavy duty equipment. To ensure that you get both, consider Ledwell's Solar Ramp! Not only is it dependable in helping you to get your job done, but it can also prove to be a very helpful piece of equipment. Solar energy powers a battery that powers a motor allowing the ramp to move to the desired height in roughly thirty seconds with a push of a button. The battery will stay powered for numerous uses after a full charge allowing use even when the sun is nowhere to be found. Ledwell's Solar Ramp is still completely customizable so that the customer gets what they want, how they want it. The Solar Ramp is also available on new equipment or as retrofit kit.

Ledwell's Sales and Engineering Teams will be happy to assist you in selecting your ramp to accommodate your location's needs by adding renewable energy features.

# EMPLOYEE SPOTLIGHT

## MICKEY WARD

Mickey Ward has been a member of the transportation industry for 40 years, and employed as an equipment sales representative at Ledwell for 17. Mickey spiked his connection with Ledwell when he purchased his first truck body in 1978. He is Ledwell's Oil and Chemical truck body expert. Mickey has overseen hundreds of pieces of equipment shipped all over the world for several major companies. His most memorable sale was when he worked with Mr. Buddy Ledwell on a shipment of twenty trucks to a copper mine in Chile. Mickey is realistic, outgoing, and motivated, all of which makes him a perfect fit for Ledwell. His family is his top priority and he works very hard to ensure that life is good for them and everyone around him.
