Ledwell News

PORTABLE RESTROOM SERVICE TRUCK

There is a growing need for quick and efficient methods of waste remediation and Ledwell can help. Our Portable Restroom Service Trucks are fabricated at our Texarkana facility by craftsmen trained specifically for vacuum manufacturing. When deciding on features to incorporate, Ledwell sales personnel are happy to discuss with you our many options. This aides in designing and building equipment to meet your specific custom needs.

Similar to other Ledwell products, our PRST have lower cost of ownership due to extended product life cycle. Achieving an extended life is due to coating the interior of the tank, using superior pump brands, and designing a durable piece of equipment. To start designing a Portable Restroom Service Truck to fit your application, give us a call!

CHASSIS IN STOCK

Ledwell is your one stop shop for truck mounted bodies and trailers. We have a large inventory of chassis and tractors in various makes and models on site including Ford, Freightliner, International and Peterbilt. Let us take care of your equipment needs!

Freightliner Conventional Chassis

Ford 750 XL Conventional Chassis

IN THE COMMUNITY

The local branch of CASA, Court Appointed Special Advocates, raffled off a tiny house this past spring to raise money for their organization. CASA provides a counterbalance to the legal actions regarding child abuse, that would not exist otherwise. They hold state caseworkers accountable regarding children in foster care and are the only volunteer organization welcomed into the court to provide advocate for these children.

Ledwell, along with several other businesses in the community, donated time and materials to help build this amazing house. We were happy to host a press release, where the mayors of both Texarkana, TX and Texarkana, AR were in attendance, to proclaim April 2018 as Child Abuse Prevention Month.

To learn more about CASA, please visit casatexarkana.org.

CASA

IN THE COMMUNITY

On April 21st, Ledwell Employees participated in the Third Annual Texarkana Dragon Boat Race. Our two teams, named after movies produced by L.W. Ledwell, Bootleggers and Boggy Creek Monsters went three rounds against a variety of teams. The Bootleggers and Boggy Creek Monsters went head to head in the last race with another manufacturing team in the race also. The two Ledwell teams finished first and second with less than two seconds separating them.

Final results of the day showed, Bootleggers as number one in premier men category and Boggy Creek Monsters with fastest time in a single round.

The boat race is held by HandsOn Texarkana, a local non-profit about service to the community though volunteerism. They equip and mobilize people to take action that changes Texarkana. To see everything HandsOn Texarkana has to offer, visit handsontexarkana.org.

SERVICE IS KEY

Ledwell equipment is built for durability, but requires some preventative maintenance to keep all parts and pieces functioning properly. Be sure to check the following daily:

- ✓ **Lights**
- ✓ **Reflectors / conspicuity tape**
- ✓ **Tires**
- ✓ **Brakes**
- ✓ **Electrical, air, and hydraulic connections**
- ✓ **Mud flaps**
- ✓ **Structure**
- ✓ **Flooring**
- ✓ **Winch cable (if applicable)**
- ✓ **Fittings at discharge/vertical augers (if applicable)**

Depending on your equipment, inspect cylinders and check grease points weekly. Grease all fitting at recommended times with marine based grease. On a monthly basis you will want to inspect all applicable features; wiring, air lines and hydraulic lines, structure of body or trailer, hydraulic oil for dirt and water, PTO and hydraulic systems for leaks, slide pads for wear.

For details on preventative maintenance on your specific Ledwell equipment, please contact our service department at 888-533-9355.

EQUIPMENT OPTIONS

Ledwell offers a wide variety of options for each product line. Options including the Bio Security Kit or Water Cannon can be purchased after equipment has been delivered or part of the initial build. Be sure to ask your Ledwell Parts Team member about options for your piece of equipment. Our Parts Team has decades of experience and can assist with any product for any industry.

EMPLOYEE SPOTLIGHT

DALE KIDD

Dale helped establish our North Carolina Service Center in Fayetteville, along with the dozen service technicians at the location. He has been with Ledwell since 2008. Dale bought from Ledwell as a mill manager and helped us make our feed haul equipment better as we went along.

Some of Dale's favorite memories about Ledwell include visiting with Mr. Buddy and enjoying a few meals at his home.

Dale and his wife Cecelia, of 38 years, have four children and five grandchildren. During his free time, he enjoys camping and going to the beach with his family.
